2.4G Active RFID Tag

Product Features

1. Suitable to adopt fixed frequency working mode, with powerful anti-jamming ability;

2. Effective reading range up to 100m (depend on reader and antenna, software configurable);

3. Super wide working band design, conforming to relevant industry rules and also flexible in application development;

4. Multi-Tag reading at the same time (more than 100pcs per second), no limitation or interference by tag quantity in the reading range.

5. Ultra-low power consumption, average working current<10uA **Physical**

6. **Built in SOS button (Optional)**

Characteristic：

Model No	SAN –ACT-CRD
Type	2.4Ghz Card type
Transmission mode	Every 5 Sec
Material	ABS, heat resistant ,White color
Dimension	86*55*4mm
Battery	**battery life up to 2 years**
IP Grade	IP67
Installation	Carry on
